KILLED AT A SHRINE

LIGHTNING'S HAVOC IN A SPANISH CHAPEL.

FIFTEEN PEOPLE KILLED AT MASS.

The Chapel Is Penetrated by a Bolt of Eightning, Dealing Death and Injury to the Humble Worshipers-The Famous Cathedral at Burgos Injured by Lightning.

MADRID, June 14.-Terrific thunder storms prevailed in various parts of Spain Sunday, and heavy loss of life and injury by lightning is reported. The electricity appeared to pick out the churches as the objects on which to shower its power while the services

were in progress.

At Melias, in the province of Orense the parish church was crowded with worshippers attending mass when the storm burst. Suddenly a terrific crash of thunder followed almost immediately a flash of lightning blinding in intensity, and caused the worshippers to spring to their feet in fear. shricked and little children clutched their parents in terror.

For two or three seconds

after the flash it was impossible to see anything, the transition from the sudden brightness to extreme darkness rendering the people practically blind. Finally when order was restored it was found that ten worshipers had been struck by lightning and instant-ly killed, and that twenty-eight others had been seriously injured.

At Mucientes, in the province of Valladolid, the church was struck by

PEFFER GIVEN A HEARING. The Kansas Senator Talks in Favor of His National Loan Bill.

WASHINGTON, June 14.-Not one of the senators who had been at Minneapolis was in the senate chamber this morning when the session opened. There were but twelve present on the Republican side and a few more than that number on the Democratic side. The first indication of the Democratic movement on Chicago was the granting of leave of absence to Mr. Voorhees, until June 26.

The pension appropriation bill, with amendments, was reported back from the committee on appropriations and placed on the calendar. It carries a total of \$146,737,350, an increase of \$11,912,284 over the house bill and \$327,200 less than the estimate.

The bill introduced by Mr. Peffer May 26 "to increase the currency and provide for the circulation to reduce the rates of interest and to establish a bureau of loans" was taken from the able and Mr. Peffer addressed thet senate in explanation and advocacy of it. It provides for the appointment by the president of three commissioners, to hold their office in Washington, whose duty it shall be to establish loan agencies, one at the capital of every* state and territory and at other convenient places-suc agency to be known as the central loan agency for that state or terri-tory. The business of these local tory. The business of these local agencies is to be to lend money to the people on the plan of well regulated real estate and loan agencies, secured by real estate. The loans are to be for not less than one year nor more than — years. They are to be for not less than \$100 nor more than \$2,500 to any one person or family. There is no provision as to the rate of interest. In order to provide funds, treasury notes are to be equal in amount to \$1.50 for every dollar's worth of gold and silver coin and bullion belonging to the United States, the bullion to be estimated at its coinage value. No banking firm, company or corporation is hereafter to receive interest at higher rate per annum than 5 per cent for short time or 4 per cent for a year or longer. There is a section in the bill providing for loans (at one-third of 1 per cent a month) by the bureau of loans for less than twelve months, on the security of personal property, whenever any state shall have provided warehouses for agricultural products such as cotton, wheat and tobacco, and for manufactured articles that will not deteriorate by storage for a few months. At the end of his speech the bill

went over without action.

Mr. McPherson gave notice of his Wednesday on the bill for the free coinage of silver and Mr. Morgan gave notice that he would do so to-day, as he expected that there would then be a quorum in the senate. The

HORRIELE BUTCHERY. Men, Women and Children Mowed Down

With a Rain of Shots. BRUSSELS, June 14 .- Further letters, which have been received here from

the White Fathers' mission, in Uganda, East Africa, repeat the charges made against the Protestant forces in that kingdom of mowing down the Cathochildren, with a dead'y rain of shots from the mitrailleuse with which they

The letters also say that after the Catholic army had three times repelled Democratic Convention Was to Be the desperate attacks made on their ranks the survivors were at length driven towards Victoria Nyanza. So hard pressed were the routed forces of the Catholics that they were actually forced into the great lake and from 500 to 600 of the people were drowned miserably like a herd of animals.

The letter adds that Major Juehne saved the lives of lishop Hirsh and King Mwanga, who led the Catholics, by his timely agrical at the scene of

Bigelow's Expulsion.

Berlin, June 14.—The American legation here has received a note from Mr. Poultney Bigelow, who was expelled from Russia, stating that he and Mr. Frederick Remington, the American artist, had been driven out of Russia. They are now at Tilsit, in East Prussia, from which place they will return to Berlin in a canoe. The expulsion of the two Americans is supposed to have been due to the publication of Cermanophile articles written by Mr. Bigelow. The object of the two travelers in visiting Russia was to make a canoe voyage along the coast. Mr. Bigelow was to write up their experience, while Mr. Remington was to make sketches to illustrate Mr. Bigelow's articles.

A CYCLONE'S FURY.

CHICAGO VISITED BY A DISAS-TROUS STORM.

Held Radly Wrecked...The Most Severe Storm Experienced for Many Years - Cyclone in Minnesota -Storm Notes.

CHICAGO, June 14 - This city was visited yesterday by one of the most severe storms known here for many years. It lasted only a short time, but during that time two persons are known to have been killed, many painfully injured and much damage done to property.

The great wigwam on the lake front in which the Democratic national convention is to be held next week was badly wrecked.

For three days intensely hot weather has prevailed in this city. About 3 o'clock yesterday afternoon heavy clouds began to gather, and half an hour later the darkness was so intense that electric and gas lights had to be called into use in the offices and stores down town. A few minutes later a tornado swept down upon the city from the northwest accompanied by terrific thunder and lightning and tor-rents of rain and hail.

In the west division of the city the wires were broken down, awnings torn off and windows shattered. Several buildings in course of erection were wholly or partially wrecked.

A brick cottage at 1336 Whipple street was demolished, 2-year-old Emma Klima killed instantly and the mother and another child badly in-

Seventy-five men were at work in the big Democratic wigwam. A quarter pole holding the northeast corner of the umbrella-shaped canvas roof gave way and tore through the canvas. The wind got under it. Guy wires snapped like twine and an instant later the great ninety-foot center mast snapped and fell with a crash, smashing through the floor and ruining 100 chairs. The canvas cover went in tat-ters and rain flooded the wigwam. The workmen marvelously escaped injury. Contractor Allen said last evening that the damage to the wig-wam will amount to fully \$8,000. He has had enough of canvas as a timber, but will be ceady for the convention.

street was struck by lightning and completely wrecked. The life saving station reports that three men seen in a row boat some distance from the shore before the storm must have been lost. After the storm no trace of them could be seen in any

direction, and it is feared they are About 9:30 another severe storm swept over the city, lasting for about three-quarters of an hour. Two build-ings were struck by lightning and set on fire and other minor damage done. No fatalities are reported. The storm had the effect, however, of demoralizing the telegraph service again, and for a long time Chicago was cut off from communication with the east.

BURSTING LEVELS.

Lower Mississippi River. NEW ORLEANS, La., June 14.-The

Orleans. Last night at 11 o'clock a serious break oc-curred at Belmont levee, St. and is reported to be seven feet deep. the work of closing will be, in the opinion of those upon the scene, a very difficult task. There is a force of 200 men at work, which is being forced.

There now are three very serious crevasses between this city and Poydras plantation. One at Villere, seven miles from the city, which formed on Saturday night, is now fifty feet wide and about five feet deep. The crevasse at Story, nine miles from the city, is reported to be, seventy-five feet At 5 o'clock yesterday morning a break occurred at Merrick planta tion, eleven miles below the city. It is ten feet wide and nine feet deep. This one makes thirty breaks on the

east bank of the river this year. The lower Mississippi from the mouth of Red river to Donaldsonville has for some time been rising at the rate of from 1-10 to 2-10 per day. This swell was caused in part by the return to the river of the Arkansas crevasse water, and in part to the flood waves coming from the Red and Ouchita

A later dispatch says that all attempts to close the Belmont crevasse have been abandoned. The opening is now 200 feet wide and 13 feet deep.

Cyclone in Minnesoti

MINNEAPOLIS, Minn , June 14. - Orono The world is better because of such a yesterday morning at 7:30 by a small cyclone which formed on the surface of the lake and swept across the peninsula with irresistible force.
The residence of George A.
Brackett was wrecked and all the fine trees surrounding the house, most of them fifty years' growth, were uprooted and now lie in a tangled mass in the cellar of the wrecked cottage. Hardly a tree is left standing along the route taken by the wind. After playing havoc on the point the twister doubled on its course and went

circling out across the lake where it

apparently dispersed after whipping

water into a foam for more than a

mile. That there was no loss of life is remarkable.

An Illinois Cyclone.

Peoria, Ill., June 14. - Word has just reached this city that Galva, a town in Henry county, forty-five miles north of here was last evening wrecked by a eyelone. Several persons are known to have been killed and many buildings were destroyed.

PEOPLE'S PARTY CONVENTION. Omaha May Not Be Able to Take Care of

the Third Party. OMABA, Seb., June 14.-Mr. V. O. Strickler, who has been deputized to act for the present in the place of H. E. Taubeneck, president of the national executive committee of the People's party, in preparing for the convention to be held here July 4, said: "The people of Omaha must do some active hustling in the next three weeks or there is grief in store for us. We have only secured accommodations as yet for a little over 6,000 people and there will be 10,000 here from this state alone. Every county in the state will send big delegations and Kansas and Iowa will pour immense crowds

M. Wilkins, chairman of the Ohio state committee says they will have ninety-two delegates and will bring a small army of sightseers. They want to arrange for a small hotel for their

exclusive use.

Indiana is in the same fix. A gentleman was here last week from Jerry Simpson's district in Kansas and engaged fifty rooms at the hotels for visitors from that congressional distriet alone. This convention will bring from 30,000 to 50,000 people to Omaha and they must be provided for.

FAVOR SUNDAY OPENING.

The Unitarian Church Places Itself on Record as to the Fair.

CHICAGO, June 14.-A petition has been received by a number of Unitarian churches requesting that the exposition buildings be kept open on Sunday. The signers of the petition which represents North Massachusetts conference and other Christian churches situated in Massachusetts and New Hampshire request that the fair be open on Sunday, but that it be "a silent exhibit" with no machinery running.

This petition has been forwarded to

Will Curtall Expenses.

NEW YORK, June 14-It was 6 clock before the baseball meeting adjourned, and the magnates said everything was hacmonious. The business done was the adoption of means to curtail expenses and to make up for loss incurred by the past unfavorable weather. The clubs agreed to cut down the number of players to thirteen and fourteen instead of seventeen and eighteen, as heretofore, so that their expenses will not be so great.

The surplus players will be placed in charge of Secretary of the League N. E. Young, who will hold them subject to the call and demand of the clubs. Mr. Young will then distribute them where he thinks they will be best fitted. In the meantime these surplus players will draw no salaries until they have been placed.

This state of affairs, it is said, will not last longer than until the fall and the busy ball season opens.
